I have known him as one of the most intelligent and hardworking students and mentees during my tenure as Associate Professor. I taught him courses **"ELECTRICAL MEASUREMENTS"** and **"ELECTROMAGNETIC FIELDS"**.

He has been among the few students who completed his assignments before the due date with excellent results. His systematic approach to handle concepts of electrical measurements and electromagnetic fields was impressive. His successful efforts in laboratory sessions, to understand and apply principles of electromagnetic fields, were remarkable. His clear understanding of the basic phenomena has given and will continue to give him a clear edge over his classmates. He maintained very good grades in my courses especially in Electromagnetic Fields, he has scored exceptionally well.

He also had practical exposure of courses like Electrical Measurements and Electromagnetic Fields by indulging in laboratory assignments and activities. He works hard to achieve his goals and is committed and good natured. His curiosity, perfection, and attention to detail will certainly be an advantage for his future endeavors.

His dedication towards higher studies, quest for knowledge, and his intellectual abilities impel me to strongly recommend him to the graduate program in your esteemed university.
